

## Claremont at the Lord Mayor's Show !!

14 pupils from yrs8 and 9 are currently taking part in workshops leading up to the Lord Mayor's Show on 13<sup>th</sup> November 2010.

The Lord Mayor's Show is one of the nation's most spectacular events to welcome the new Lord Mayor. It's a tradition that goes back centuries. The event is the largest unrehearsed procession in the world, with over 70 floats, 20 marching bands, 18 coaches plus the glorious golden State Coach passing along the three mile route through central London.

Claremont's theme for the show is Energy and in the first workshop, which took place on 12<sup>th</sup> October, the pupils were visited by 2 civil engineers from Arup and Balfour Beatty who helped them to design their own wind turbines.

Since then, the pupils have been working with an artist from Kinetica to create large models of the turbines. **Four of the pupils will carry the model turbines on a float in the procession.**

**Come along and show your support!!!**
